You are invited to:

SECURITY AND COMPLIANCE WORKSHOP FOR MANUFACTURERS

*Security is not just for IT professionals. It is for **Anyone** that deals with:*

*IT, Operations, Finance, Procurement, Security, Facilities or has responsibility for the **Security of your company** -*

*this class is for **You!***

With Headlines like, "<u>US warns Americans to prepare for increased cyberattacks amid Russia-Ukraine invasion (NewsNation)</u>" the security of not only our networks, but our **business operations** and our **people** are a priority. It is not just the cost associated with *IT Concerns*, but the *cost of lost work hours, production shutdowns,* and *late deliveries* that can add up and impact the <u>**bottom line**</u>.

By attending this ***Workshop,*** you will leave with a clear understanding of the financial impact of not being *Security Compliant* in your specific company environment.

For companies that work with the Department of Defense – this is *Mandatory!*

For any company – this should be a *Priority!*
