

GLOBAL WORKFORCE

How the Workplace, the Work,
and the Workers will
be redefined

Dr. Shirley Davis
President
SDS Global Enterprise

The work, workers, and workplace of the future will continue to undergo dramatic transformation.

By 2030 workers will be older and younger at the same time, more educated and less skilled, hyper-connected and more ethnically diverse. Are we ready for this new workforce reality?

Our Keynote speaker, **Dr. Shirley Davis**, has been a featured expert on NBC's The Today Show, the Wall Street Journal, NPR and USA Today. She is a sought-after global thought leader around the world on Diversity & Inclusion and Global Talent Management trends. Dr. Davis will share new strategies, competencies, skills and new leadership models that will be needed for the world ahead.
