Saneex[®]

Saneex (Miami, FL) develops robotic self-sanitizing and deodorizing toilet seats. B2B customers with public restrooms can easily replace their existing toilet seats with the Saneex Pro toilet seats. The low-maintenance device operates three to six months before needing battery or sanitizing solution replacement, which customers can also buy through Saneex. Saneex is currently working with two factories in Asia to bring the product to market.

CEO: Nuri Dorra | n.dorra@saneex.com | Saneex.com

Roving Blue (Lena, WI) products harness "The Power of EO3™", a new way to produce and dissolve ozone gas into water. This gives standard tap water bleach-like powers; it can be used to quickly kill unwanted microorganisms in drinking water, meats and produce, and surfaces. Ozone quickly reverts to ordinary oxygen, leaving no chemical residues, which saves on chemical costs and drastically reduces water use. Roving Blue® is a QNVB Certified, Delaware C-Corp. In 2020, Roving Blue® generated \$189,295 in revenue, an increase of 116% over 2019.

CEO: Marianna DeMyer | yana@rovingblue.com | RovingBlue.com

Luys (Silicon Valley, CA) develops and manufactures smart building products, starting with LED lights to indicate public restroom stall occupancy. In addition to providing this occupancy status for restroom patrons, Luys' patented system also includes sensors for facility managers to capture usage, servicing and environmental data.

CEO: Daniel Castellano | daniel_castellano@luys-systems.com

COMPEL (Indianapolis, IN) provides a rinse-free, durable cleanser for skin and surfaces. COMPEL's all-natural, simple, and scientifically-proven formula restores the natural skin barrier and safeguards a variety of surfaces and fabrics with lasting effects. COMPEL's patent-pending formula sells through eCommerce and distribution, initially focused on athletic facilities. COMPEL has generated \$8,526.54 to date.

Co-founder: Tricia Ringer | tricia.ringer@ring-co.com | ring-co.com

Altitude Medical (Cleveland, OH) makes hand hygiene intuitive by developing uniquely designed door handles that dispense hand sanitizer. These products make it easy and intuitive for users to remember to sanitize their hands. By putting these proprietary sanitizing systems at critical points of contamination, Altitude Medical increases the rate of hand hygiene and improves the facility's overall health and wellness. Altitude Medical has generated \$745K in revenue to date.
