# Dynamics of Job Change, 2023

Preliminary 2023 data from January 1 - June 30

- Starts - new establishment opened
- Closure - unique location ceased operations
- Move In - operating establishment changed location, is now in the community
- Moves Out - establishment continued operations but left the community
- Expansion - additional jobs were added to an operating establishment
- Contraction - reduction in jobs at an operating establishment

## Net Change in Jobs, 2023

**-7,040**

### Jobs Added from Starts

**5,660**

### Jobs Gained from Moves In

**481**

### Jobs Added from Expansion

**2,696**

### Jobs Lost from Closures

**-12,338**

### Jobs Lost from Moves Out

**-581**

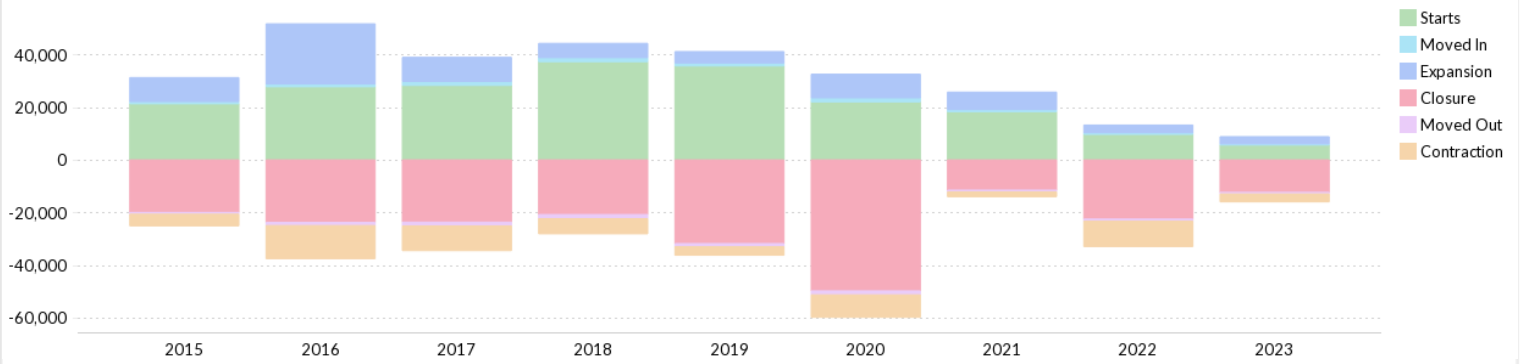

### Jobs Lost from Contraction

**-3,001**

\* Establishments may (and often do!) expand or contract when moving. In this net job total we count only those that jobs that moved into the area, but display all changes in the individual boxes for moves in/out and expansion/contraction. Adding the individual boxes together may not be equal to the net total change.

Which contributes more to your changes? Starts or Expansions?

## Discover Trends in Your Economy

Data presented 2004-2022 is annual information. Preliminary 2023 data is reported from January 1 to June 30, 2023.

## Total Establishments by Year

## What is an establishment?

An establishment is a single, active, physical location of one company/organization. An establishment may be for-profit, non-profit, government, education or an agricultural facility.

- There may be more than one establishment at a single address
- One company may have multiple establishments
- Establishments are operating workplaces - we exclude shell companies and passive entities.

[Learn more](#) about our definitions.

## Total Jobs by Year

## Why does it say Jobs and not Employees?

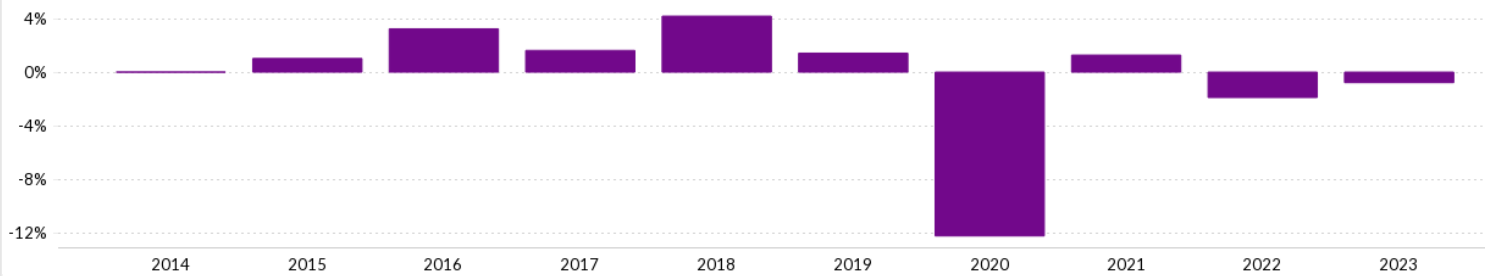

A job is a single human being who participates in the operations of an establishment, including:

- Traditional employees who receive regular wages
- Independent contractors and temporary workers
- Owners, partners and others who work but may not receive regular wages.

### How is Owner Demographic Data Collected?

One of our data providers calls each location and asks if they wish to be identified as "Woman Owned" etc. No distinction is made for percentage of ownership or additional detail. At this time, very few establishments have currently opted to be identified using this method.
